GAME OPERATION

*Indicates adjustable features

Game Over Mode - Turn game ON; player scores show zero, high score to date* alternates with player 1 score, player 1 up lamp flashes, game over lamp lights, all playfield lamps except for credit lamp cycle in attract mode.

Credit Posting - Insert coin; knocker sounds, number of credits displayed. If maximum credits* exceeded by coin or high score to date*, credits are posted correctly, coin lockout de-energized until remaining credits are below maximum. No credits may be won and coins are rejected while lockout is energized.

Game Start - Push credit button; start-up tune played, ball served, credit display reduced by one, player 1 up lamp flashes until first scoring switch is made, ball in play shows 1. Pushing credit button before ball 2 displayed allows additional players.

LANE CHANGE is a trademark of Williams Electronics, Inc.

Bonus - Bonus is advanced once by making any top King rollover and is advanced three times by making an Ace eject hole. The bonus multiplier is advanced from 2x through 5x by making lit Joker targets. When 5x is achieved, making flashing Joker target scores 10,000. Lit and flashing Joker targets are randomly selected.

4 Kings - Spotting 4 Kings advances Royal Flush multiplier from 2x through 4x. Lighting 3x lights the spinner. Lighting of King rollovers lights an associated jet bumper. Operating the right flipper button rotates King rollover lamps and jet bumper lamps (**LANE CHANGE™** feature). Making the lower left inside rollover spots a King rollover lamp.

Royal Flush - Making Diamond Royal Flush drop targets in sequence (10, Jack, Queen, King, Ace) scores highest lit value. Making a drop target out of sequence decreases the lit value and lights the Spade Ace eject hole to increase the lit value. With the lit value less than maximum, making a target in sequence or the Spade Ace eject hole increases the lit value. Targets made out of sequence are individually reset.

POKER - Making Spade Ace, Heart Ace, and Club Ace eject holes advances lighting of P-O-K-E-R. Spotting "K" lights the Heart Ace and Club Ace eject holes for an Extra Ball. Spotting "R" alternately lights the left and right outlanes for a Special.

Extra Ball - Maximum of one* Extra Ball per ball.

Memory - King rollovers, partial Royal Flush, spinner lamp, Royal Flush bonus multipliers, *partial lighting of P-O-K-E-R, *Ace eject hole, *Royal Flush lit value, *Extra Ball lamp.
