TABLE OF CONTENTS

SEGA ENTERPRISES, LTD., supported by its high eletronic technology of LSIs, microprocessors, etc. and a wealth of experience, has for more than 30 years been supplying various innovative and popular game machines to the world market. This Owner's Manual is intended to provide detailed descriptions together with all the necessary information covering the general operation of electronic assemblies, electromechanicals, servicing control, spare parts, etc. as regards ALIEN³THE GUN, a new SEGA product.

TAKING OUT THE CONTROLLER

F ... 0

This manual is intended for those who have knowledge of electricity and technical expertise especially in ICs, CRTs, microprocessors, etc. Carefully read this manual to acquire sufficient knowledge before working on the machine. Should there be a malfunction, non-technical personnel should under no circumstances touch the interior system. Should such a case arise, contact our Main Office or the closest branch office listed as follows:

SEGA ENTERPRISES, INC. (U.S.A.)/CUSTOMER SERVICE 45133 Industrial Drive, Fremont, California 94538, U.S.A. Phone : (415) 802–3100 Fax : (415) 802–1754

SEGA AMUSEMENTS EUROPE LIMITED/AMUSEMENT MACHINE SALES DIVISION Unit 2 Industrial Estate, Leigh Close, New Malden, Surrey KT3 3NL, England Phone: (081) 336–2256 Fax : (081) 336–1715

HANDLING PRECAUTIONS

- When installing or inspecting the machine, be very careful of the following points and pay attention to ensure that the player can enjoy the game safely.
 - Be sure to switch the power off before working on the machine.
 - To insert or pull out the plug quickly is dangerous.

1.

- It is necessary to make sure that the power cord or grounding wire is not routed in a manner so as to be dangerous. Make sure that grounding connections are made safely at a position where so specified.
- Do not use any fuse that does not meet specified rating.
- Make complete connections for the IC board and other connection. Insufficient insertion of ICs and connectors will lead to unreliability and possible damage to the machine.
- The operating (ambient) temperature range is from 5°C to 40°C.
- When cleaning the Monitor CRT front glass, use a soft dry cloth and glass cleaner. Do not apply chemicals such as thinners, benzene etc.

After confirming that there are no irregularities, turn the power ON.

3. PRECAUTIONS CONCERNING INSTALLATION LOCATION

The ALIEN³ THE GUN is an indoor game machine. Absolutely do not install it outside. Even indoors, avoid installing in places mentioned below so as to ensure proper usage:

•Places subject to rain or water leakage, or condensation due to humidity. •In the proximity of an indoor swimming pool and/or shower.

The FL UNIT is mounted on the

·Places subject to direct sunlight.

·Places subject to heat sources from heating units, etc., or hot air.

•Vicinity of highly inflammable/volatile chemicals or hazardous matter. •Sloped surfaces.

•Vicinity of anti-disaster facilities such as fire exits and fire extinguishers.

·Places subject to any type of violent impact.

·Dusty places.

INSTALLATION PRECAUTIONS

1) Do not insert more than one electrical plug into the power plug socket.

2) The per unit standard voltage/amperage is $100 \sim 120 \text{V/5A}$ and $200 \sim 240 \text{V/3A}$.

3) If an extension cord is to be used, use a cord of 5A or higher rating.

CONCERNING ITEMS:

Flamethrower

wer wer

are

er,

OF

ote: 'The following 21 ranks are based on the ranking of the U.S. Marine Corps.

This is fired from the muzzle. Use it to wipe out the enemies. Although powerful, it is not effective against far away enemies.

Hand Grenade Supply Unit

Every time the player captures this, one hand grenade is replenished.

25% Life Supply Unit

Recovers 1/4 of the player's power.

100% Life Supply Unit

Recovers the player's power completely.

Corporal Sergeaut Staff Sergeant Gaunery Sergeant Master Sergeant Sergeat Major Chief Warrant Officer Second Lieutenant Firnt Lleutenant Cajotain Major Colonel Bidgatier General Bidgatier General Cleutanant General Capetal

KNACK OF HOW-TO-EARN HIGH SCORE

Shoot the enemies (some are escaping) and articles appending in the stage that can be damaged (lights, boxe etc.), and be very careful not to shoot Marines (if you do, points decrease).

The ranking appearing after a stage may go higher in a slower pace due to the frequency of damage canner, the alayer, frequency of CONTINUE or shooting the Marine by mistake.

0-9-

•

.[]]]

RANKING

CONCERNING ITEMS:

• The ranking herein stated refers to the Colonial Marine which the characters operated by the player belong to. Note: The following 21 ranks are based on the ranking of the U.S. Marine Corps.

Private Private First Class Lance Corporal Corporal Sergeant Staff Sergeant Gunnery Sergeant Master Sergeant Sergent Major Warrant Officer Chief Warrant Officer Second Lieutenant First Lieutenant Captain Major Lieutenant Colonel Colonel Brigadier General Major General Lieutenant General General

KNACK OF HOW-TO-EARN HIGH SCORE

Shoot the enemies (some are escaping) and articles appearing in the stage that can be damaged (lights, boxes, etc.), and be very careful not to shoot Marines (if you do, points decrease).

The ranking appearing after a stage may go higher in a slower pace due to the frequency of damage caused to the player, frequency of CONTINUE or shooting the Marine by mistake.

8. EXPLANATION OF TEST AND DATA DISPLAY

о.

By operating the switch unit, periodically perform the tests and data check. When installing the machine initially or collecting cash, or when the machine does not function correctly, perform checking in accordance with the explanations given in this section.

The following shows tests and modes that should be utilized as applicable.

ITEMS	DESCRIPTION (MOTTUR EDIVISE)	REFERENCE SECTIONS
INSTALLATION OF	When the machine is installed, perform the following:1. Check to see that each setting is as per standard setting made at the time of shipment.	8-9
MACHINE pollogo	2. In the INPUT TEST mode, check each SW and VR.	8-5
	3. In the OUTPUT TEST mode, check each motor.	8-6
	4. In the SELF-TEST mode, check ICs on the IC Board.	8-3
MEMORY	Choose MEMORY TEST in the MENU mode to allow the MEMORY to be performed. In this test, PROGRAM RAMs, ROMs, and ICs on the IC Board are checked.	8-3
PERIODIC SERVICING	 Periodically perform the following: 1. MEMORY TEST 2. Ascertain each setting. 3. In the INPUT TEST mode, test the CONTROL device 4. In the OUTPUT TEST mode, check each motor. 	8-3 8-9 8-5 8-6
CONTROL SYSTEM	 In the INPUT TEST mode, check each SW and VR. Adjust or replace each SW and VR. If the problem can not be solved yet, check the CONTROL's moves. 	8-5 8-4, 8-5, 9-2
MONITOIR	In the MONITOR ADJUSTMENT mode, check to see if the MONITOR adjustment is appropriately made.	8-8
IC BOARD	 MEMORY TEST In the SOUND CHECK mode, check the sound related ROMs. 	8-3 8-7
DATA CHECK	Check such data as game play time and histogram to adjust the difficulty level, etc	8-11, 8-12 8-9

•	COIN CHUTE	Number of coins put in. As seen from the front of the cabinet, the right-
		hand side is #1 and the left- hand side is #2.
•	TOTAL COIN	Total number of activations of coin chutes
•	COIN CREDIT	Credits registered by both the left and right SERVICE BUTTONs.
•	TOTAL CREDIT	Total number of credits (COIN CREDITS + SERVICE CREDITS)
•	NUMBER OF GAME	Total play by both 1P and 2P
•	GAME PLAY TIME	Total time of play by both 1P and 2P (in a simultaneous play,
		the overlapped time is not counted.)

1.

• Press the TEST BUTTON to proceed to the next page.

When the data has been cleared, "COMPLETE

SERVICE BUTTON, and then just

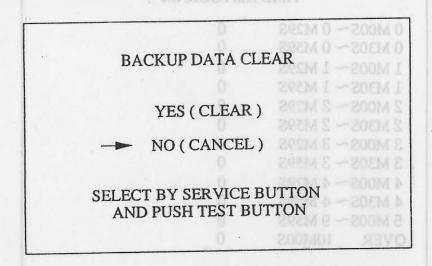

press the TEST BUTTON to cause the Menu mode to return on to the · TIME HISTOGRAM shows the number of players whose play became "GAME OVER" in each of

- the above time periods.
- · Press the TEST BUTTON to return to the Menu.

will be displayed.

8-12 BACKUP DATA CLEAR

Clears the contents of BOOKKEEPING.

When clearing, bring " \rightarrow " to "YES" and when not clearing, to "NO", by using the SERVICE BUTTON, and then push the TEST BUTTON.

When the data has been cleared, "COMPLETED" will be displayed. Bring " \rightarrow " to "NO" and press the TEST BUTTON to cause the Menu mode to return on to the screen.

-28-

9. CONTROLLER

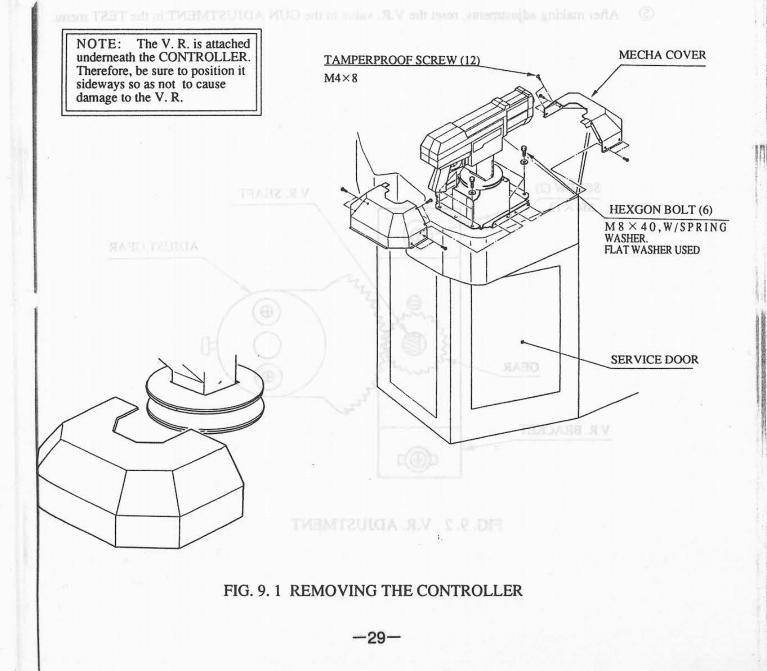

9-2 ADJUSTMENT & REPLACEMENT OF Y.R.

- In the TEST menu, when the CONTROLLER'S V.R. values can not be adjusted to the allowable range, it is necessary to adjust the V.R. installation position or replace the V.R.. Also, be sure to apply grease for the mechanism part every 3 months.
- To perform the above-mentioned work, remove the CONTROLLER from the cabinet.

9-1 REMOVING THE CONTROLLER

- 1 Take off the SERVICE DOOR from the CONTROLLER to be removed.
 - (2) Disconnect 7 CONNECTORs inside the SERVICE DOOR (3P red, 3P blue, 2P red, 2P blue, 2P black, and 1P white 2).
 - 3 Take off 12 TAMPERPROOF SCREWs to remove the 2 MECHA COVERs.
 - ④ Take out the 6 HEXAGON BOLTs and remove the CONTROLLER. First, make sure that the wires are free and then carefully lift it up.

9-2 ADJUSTMENT & REPLACEMENT OF V.R.

V.R. ADJUSTMENT

9. CONTROLLER

9 - 1

When the V.R. value is set in the GUN ADJUSTMENT of the TEST menu, if the COTROLLER's sight does not correctly function, it is necessary to adjust the V.R. installation position, or replace the V.R..

apply grease for the mechanism part every 3 months.

To perform the above-mentioned work, remove the CONTROLLER

① Loosen the 2 screws (which secure the V.R. BRACKET) to move the V.R. BRACKET.

- ② Move the V.R. BRACKET to disengage the GEAR and ADJUST GEAR. Move the V.R. SHAFT and make sure that the cut portion of the V.R. SHAFT faces the opposite side of the ADJUST GEAR as shown in Fig. 9. 2.
 - 3 Cause the GEAR to be engaged and tighten the 2 screws. At this time, make backlash adjustments.
 - (4) Carefully swing the gun in the horizontal and vertical directions and check to see if the V.R. value is within the allowable range.
 - (5) After making adjustments, reset the V.R. value in the GUN ADJUSTMENT in the TEST menu.

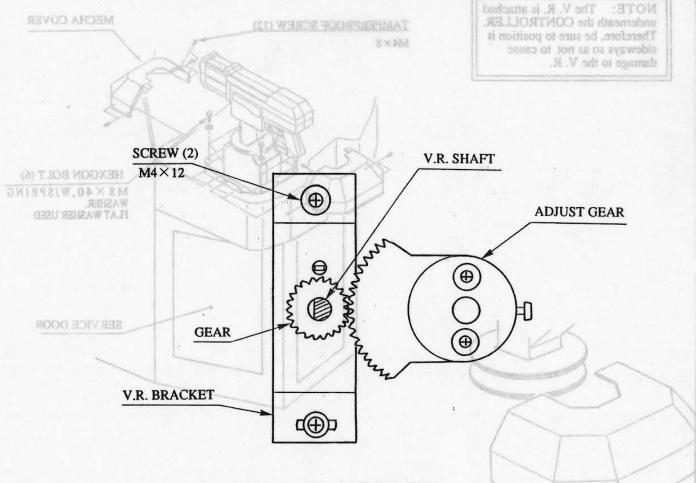

FIG. 9. 2 V.R. ADJUSTMENT

FIG. 9.1 REMOVING THE CONTROLLER

REPLACEMENT OF VOLUME (220-5130 or 220-5373 VOL CONT B-5K OHM)

① Remove the SCREWs "A" that fasten the VR BRACKET. The VR BRACKET becomes unfastened and the VR GEAR disengaged from the HANDLE GEAR.

2 Remove the VR GEAR from the VR. Then, replace the VR.

ht

T

ue

③ After the replacement of the VR, newly set the VR value in the VOLUME ADJUSTMENT mode. (Refer to the preceding page.)

REMOVING THE MOTOR BRUSH

- ① Take off the 4 TAMPERPROOF SCREWs and remove 2 SHAFT COVERs B.
- ② The MOTOR appears as shown in the Fig. at the right. Turn the cap with a screwdriver, etc., to remove the brush.

It use motor prushes to a were out as snown, injuste men Be sure to replace both of the brushes at the same time.

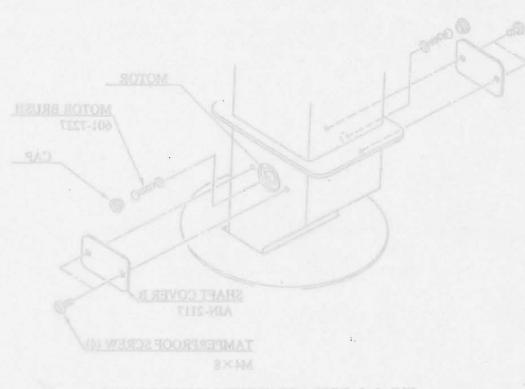

FIG. 9.3 REPLACING THE MOTOR BRUSH

MH 9-3 REPLACEMENT OF MOTOR BRUSH SMULOV TO THEMBOALTER

CAUTION: When replacing the brush, be very careful so as not to drop it in the machine.

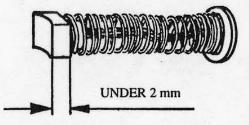

When 1P GUN or 2P GUN display is ON in the OUTPUT TEST screen in the TEST mode, if the gun does not vibrate, first check the CIRCUIT PROTECTOR of the SWITCH UNIT.

If the circuit protector is satisfactorily working, check the motor brushes.

REMOVING THE MOTOR BRUSH

- Take off the 4 TAMPERPROOF SCREWs and remove 2' SHAFT COVERs B.
- ② The MOTOR appears as shown in the Fig. at the right. Turn the cap with a screwdriver, etc., to remove the brush.

If the motor brushes are worn out as shown, replace them. Be sure to replace both of the brushes at the same time.

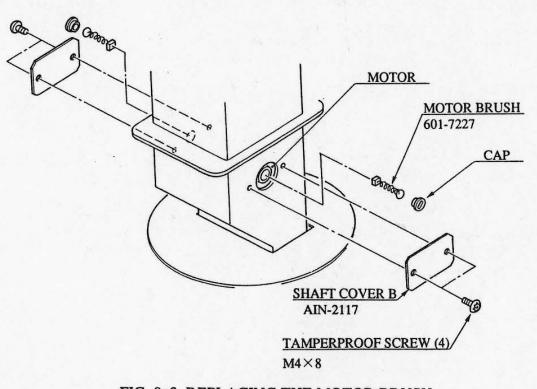

FIG. 9.3 REPLACING THE MOTOR BRUSH

9-4 REPLACEMENT OF TRIGGER SW

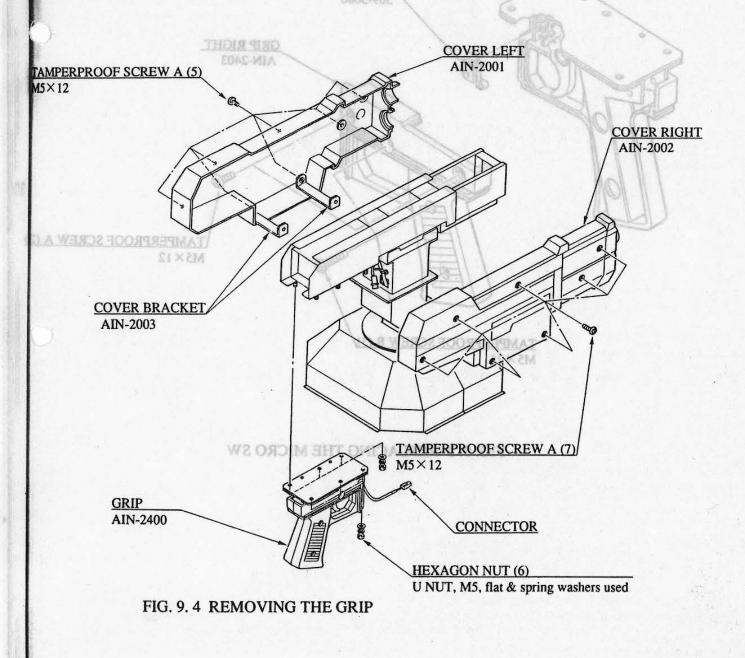

When the TRIGGER is pulled, if ON is not shown in the TRIGGER display in the TEST menu

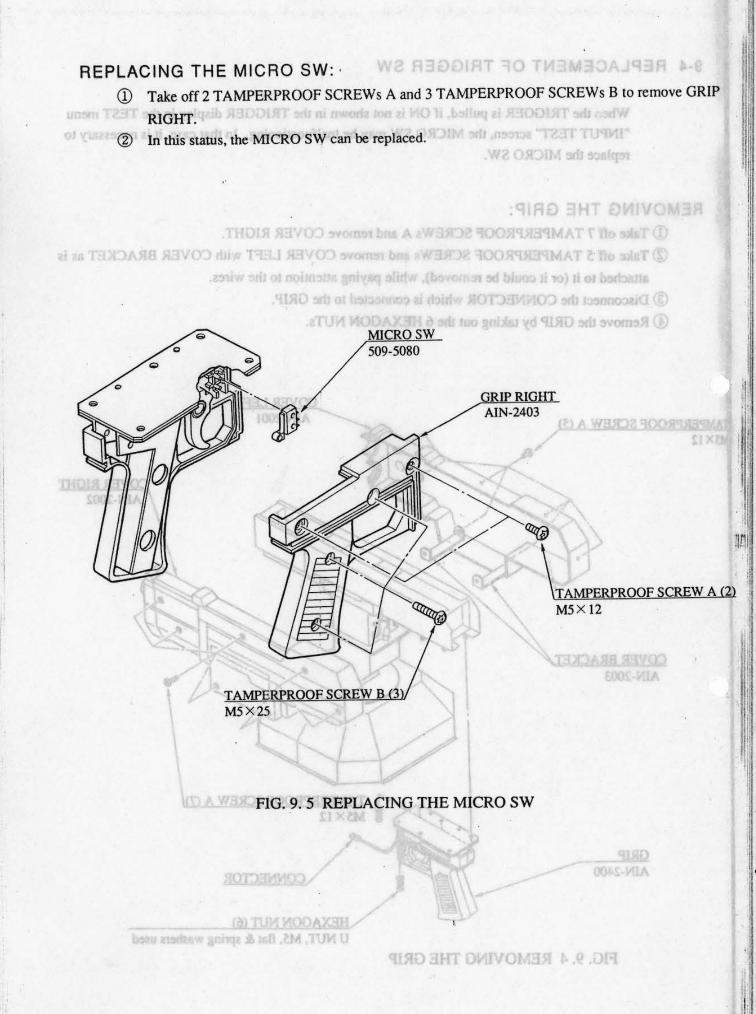

"INPUT TEST" screen, the MICRO SW may be malfunctioning. In that case, it is necessary to replace the MICRO SW.

REPLACING THE MICRO SW:

REMOVING THE GRIP:

- 1 Take off 7 TAMPERPROOF SCREWs A and remove COVER RIGHT.
- ② Take off 5 TAMPERPROOF SCREWs and remove COVER LEFT with COVER BRACKET as is attached to it (or it could be removed), while paying attention to the wires.
- ③ Disconnect the CONNECTOR which is connected to the GRIP.
- ④ Remove the GRIP by taking out the 6 HEXAGON NUTs.

-34-

9-5 GREASING

O GUN DRIVE portion:

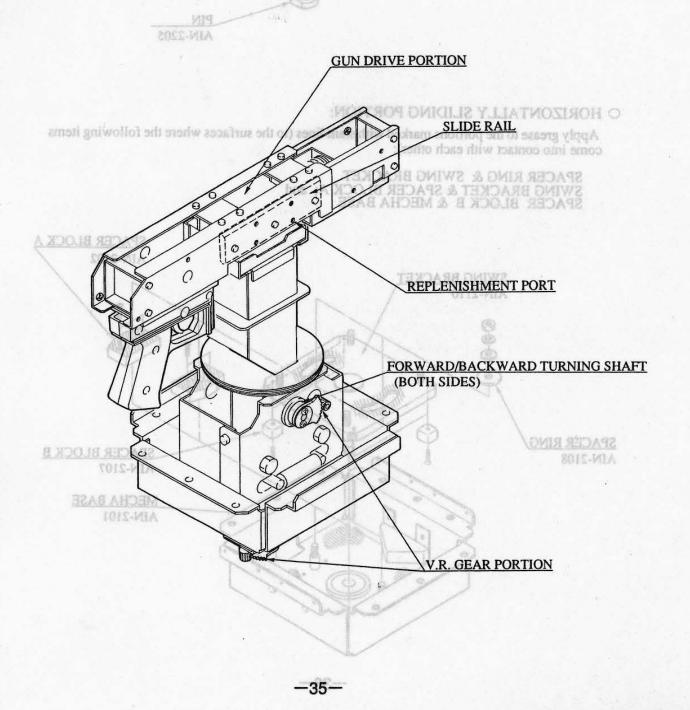

Apply grease to the pin's portion marked with slant lines.

Apply greasing for the following portions every 3 months:

OGUN DRIVE portion OSLIDE RAIL

Apply the grease from the 4 replenishment ports (on each side).

OV.R. GEAR portion OForward/Backward turning SHAFT OHorizontally sliding portion

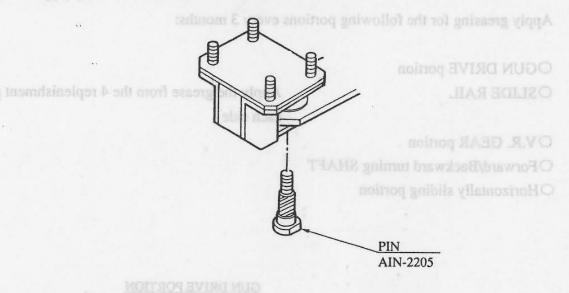

○ GUN DRIVE portion:

9-5 GREASING

TI M

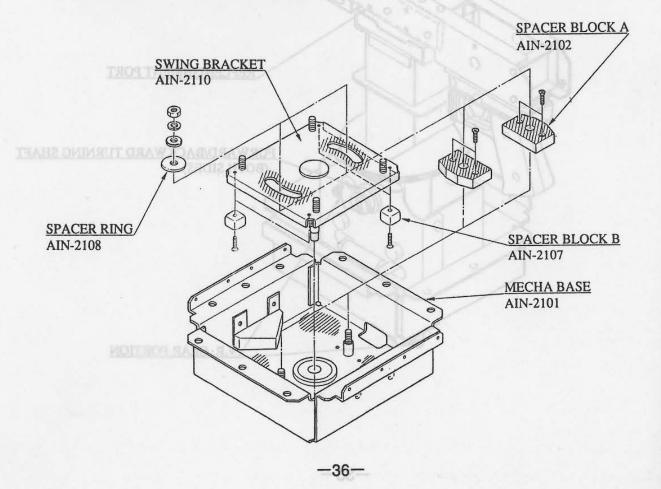

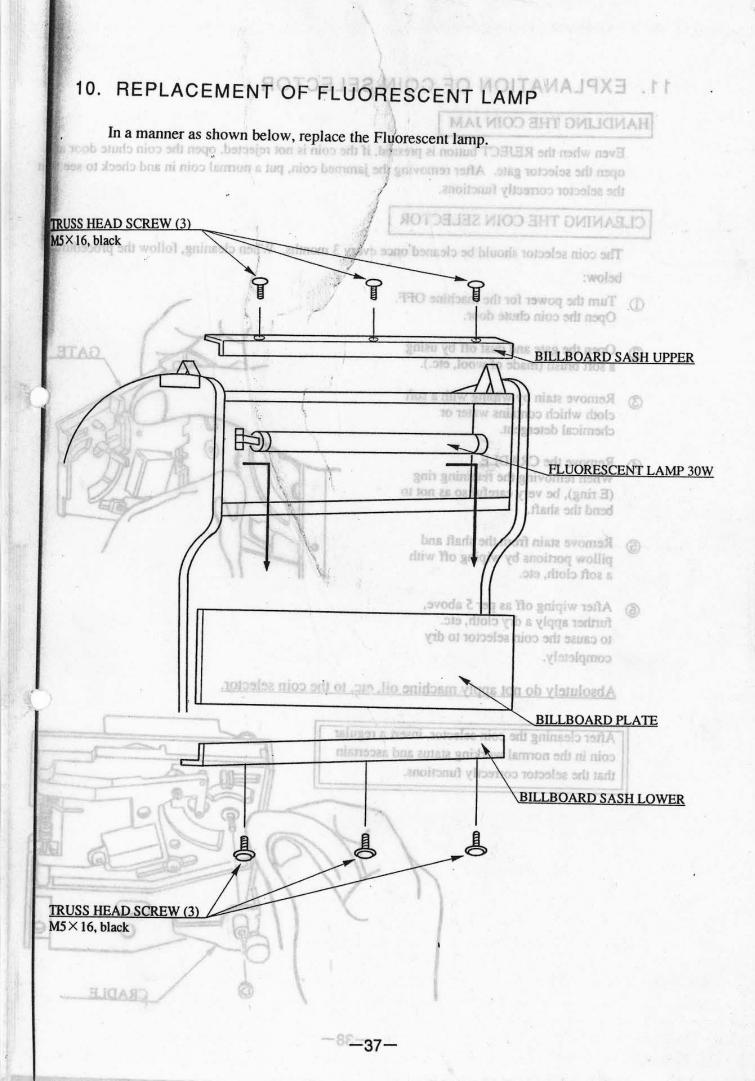

○ HORIZONTALLY SLIDING PORTION:

Apply grease to the portions marked with slant lines (to the surfaces where the following items come into contact with each other):

SPACER RING & SWING BRACKET SWING BRACKET & SPACER BLOCK A; and SPACER BLOCK B & MECHA BASE

11. EXPLANATION OF COIN SELECTOR

HANDLING THE COIN JAM

Even when the REJECT button is pressed, if the coin is not rejected, open the coin chute door and open the selector gate. After removing the jammed coin, put a normal coin in and check to see that the selector correctly functions.

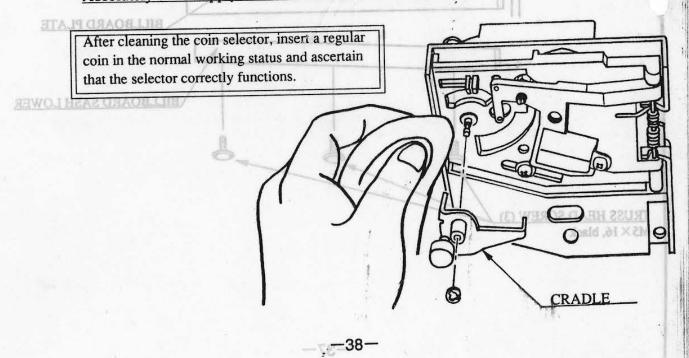

CLEANING THE COIN SELECTOR

The coin selector should be cleaned once every 3 months. When cleaning, follow the procedure below:

GATE

- Turn the power for the machine OFF.
 Open the coin chute door.
- Open the gate and dust off by using a soft brush (made of wool, etc.).
 - (3) Remove stain by wiping with a soft cloth which contains water or chemical detergent.
- Remove the CRADLE.
 When removing the retaining ring (E ring), be very careful so as not to bend the shaft.
 - S Remove stain from the shaft and pillow portions by wiping off with a soft cloth, etc.
 - After wiping off as per 5 above, further apply a dry cloth, etc. to cause the coin selector to dry completely.

Absolutely do not apply machine oil, etc. to the coin selector.

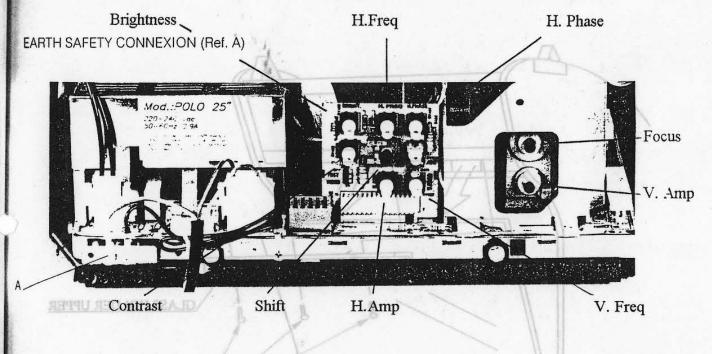

12. MONITOR ADJUSTMENTS MOITOB9200 OIGOIAB9 .21

O lerence	 O Do not operate the ADJUSTMENT knobs without good reason. O A certain portion of the monitor is subject to a high voltage and therefore be very careful of this point. O When making adjustment, utilize a resinous Alignment Screwdriver. O Make adjustments from the BACK DOOR side. 				
8-9, 8-10	- ADDRINE	CHECK EACH SETTING			
8-4	Monthly	CHECK THE VOLUME VALUE	CONTROLLER

18. WIRE COLOR CODE TABLE

THE WIRE COLOR CODE is as follows :

	the second s
A	PINK
A	PINA
	T TTAT

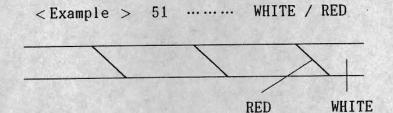

- B SKY BLUE
- C BROWN
- D PURPLE
- E LIGHT GREEN

Wires other than those of any of the above 5 single colors will be displayed by 2 alphanumeric characters.

1	RED
2	BLUE
3	YELLOW
4	GREEN
5	WHITE
7	ORANGE
8	BLACK
9	GRAY

If the right-hand side numeral of the code is 0, then the wire will be of a single color shown by the left-hand side numeral (see the above).

Note 1 : If the right-hand side alphnumeric is not 0, that particular wire has a spiral color code. The left-hand side character shows the base color and the right-hand side one, the spiral color.

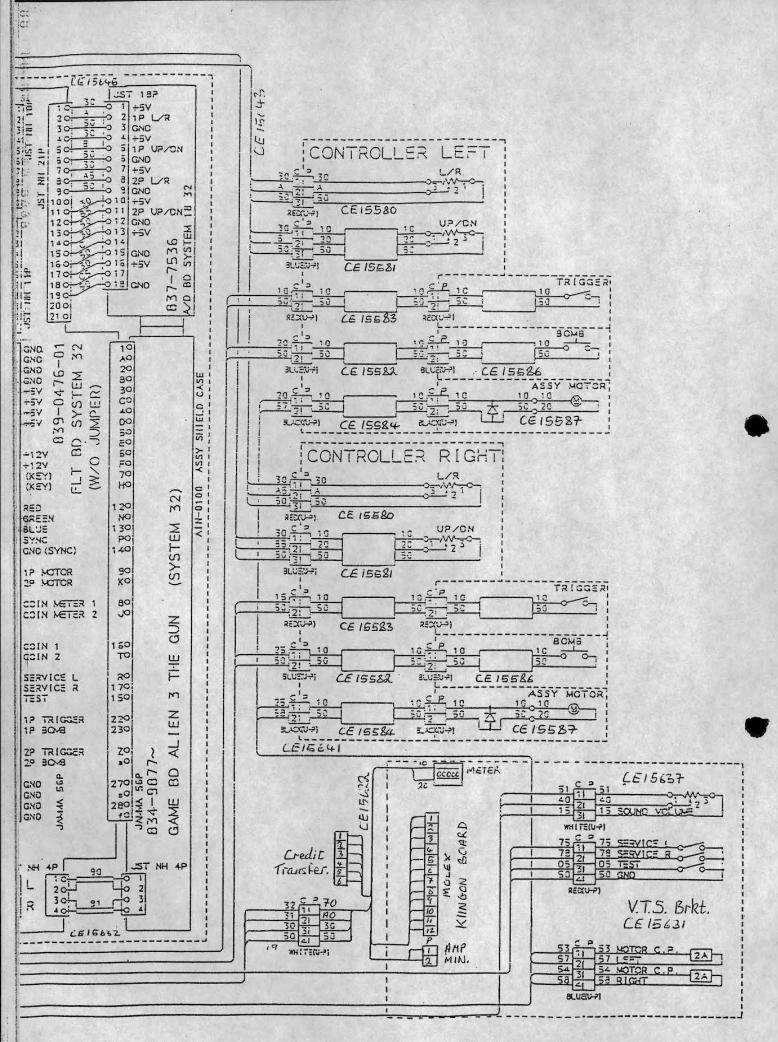

Note 1 : The character following the wire color code indicates the size of the wire.

K	: A W G 18,	U L 1015
L	: A W G 20,	UL1007

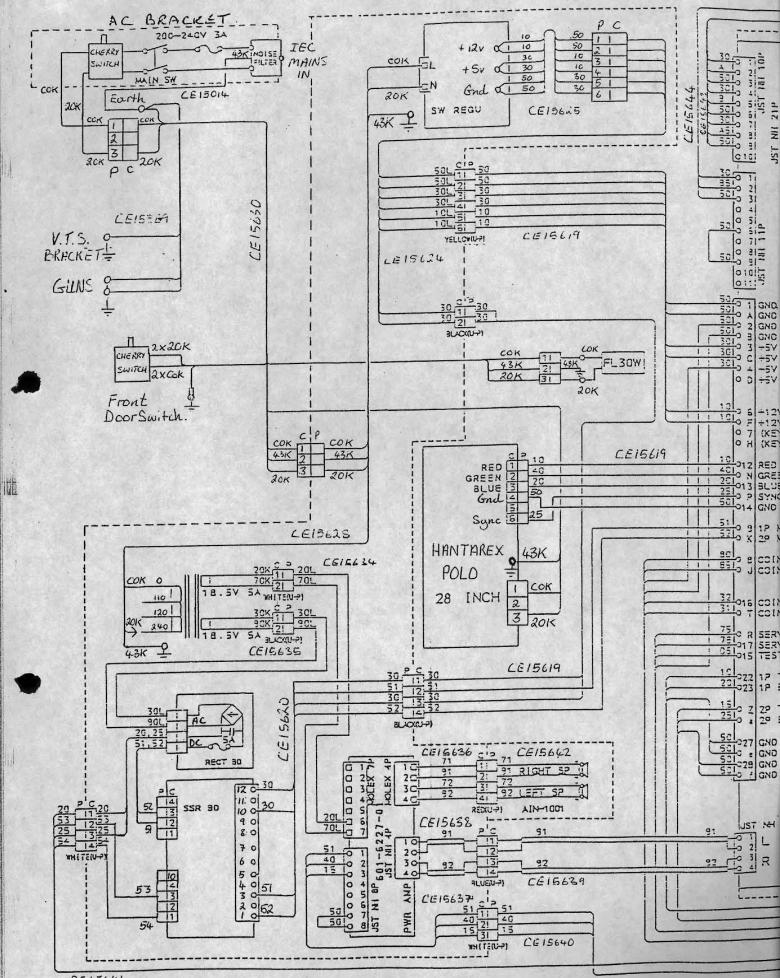

None: A W G 22, U L 1007

Wire colours may differ on UK machines
