THE TIN STAR®
ADDENDUM

This procedure may have to be done to the video PCB of SJ board sets. The video board is the center board.

Boards affected: W0070002 and W0070002A

Problem: Sheriff lays down for no apparent reason.

Reason: Noise induced on "hit detect" signal.

Solution: Change C33, capacitor next to 1C58, from 180pf to 330pf or add a 330pf capacitor from 1C58 pin 6 to ground.
